

*Introducing from
Still Spirits*

TURBO SUGAR

..... ..is the latest development from the Still Spirits laboratory. Turbo sugar is the result of extensive development aimed at further improving the quality of distilled spirits. The combination of sugars coupled with the unique carbon varieties continuously treat the wash as it ferments. This produces a wash of unparalleled purity, up to 80% less byproducts. When this wash is distilled a cleaner spirit in both taste and smell it results.

Use Turbo Clear prior to distilling.

Produces a purer wash that will then give you a cleaner spirits.
